REPORT SCHOOL BOARD

August 31, 1918, to August 31, 1919

Remarks

Since our last report another change has taken place in our school work.

At the last session of the legislature a new school law was passed, creating a State Board of Education, under whose supervision we now work.

Our supervisory district is composed of the towns of Pembroke, Allenstown, Bow, Epsom and Hooksett, as arranged by the state.

A meeting of the members of the School Boards of the several towns was held, and Henry S. Roberts was elected Superintendent.

At the annual school meeting of our town, held on April 5, 1919, Clifton P. Sanborn was re-elected a member of the board to serve for three years. It was voted to repair the building at No. 6 at a sum not to exceed \$2,000.00, and a committee was appointed to make plans for the same.

During the summer the building was repaired under the direction of the State Board of Health. New chemical toilets were installed inside the building, the lighting arrangements changed, a jacketed stove placed in the upper room, and other repairs made. Walter E. Harrison had charge of the work.

Such minor repairs as were deemed necessary have been made on other buildings during the year.

At the new building, No. 4 district, the water system has proved inadequate, and something must be done there as soon as possible in the spring.

The attendance of many of our pupils has been very irregular the past year, and while the influenza epidemic is responsible for some of it, yet we wish the coöperation of the parents in this matter.

Owing to the low rate of average attendance, we lost the state aid last year.

In making out our budget for next year, we find the cost of school supplies, the teachers' salaries and all expenses are advancing, as in our own personal affairs, so a generous financial provision must be given us. The new law requires 36 weeks of school.

Clifton P. Sanborn has acted as Truant Officer the past year.

The following are the financial requirements for all schools for the next year:

Amount required by law	\$4,910 03

REPORT OF Superintendent of Schools

To the School Board and Citizens:

I call your attention to certain provisions of the new school law which is your privilege and duty to perform.

REGULATIONS FOR TEMPORARY APPROVAL OF SCHOOLHOUSES. FOR SCHOOL YEAR 1919-1920 ONLY

1. Lighting should be principally from the pupils' left and rear and no windows shall be permitted in the front of any schoolroom. The ratio of window area to floor area shall be not less than one to five. Ceilings shall be white or light cream color, and curtains of a light tint shall be provided wherever needed.

2. Equipment for heating must be adequate to furnish a minimum temperature of 68 degrees, and some provision must be made for ventilation without direct draft on the pupils.

3. Floors must be in good condition and oiled or swept with some dust-laying compound. Walls must be in good repair and painted some light color. Papered walls have only temporary approval.

4. Toilets must be decent and in sanitary condition. They must be located in buildings free from obscene markings and furnishing proper privacy. The vaults must be fly proof and properly ventilated. The

seats should be provided with covers and in the boys' toilets a double seat or urinal should be provided. Single toilets for both sexes will not be approved except for small schools and then only if the entrance is from the schoolroom only.

5. Water for drinking must be provided in properly covered receptacle with faucet or bubbler. Facilities for washing the hands must also be provided. Common towels or drinking cups are prohibited by the regulations of the State Board of Health.

6. Every schoolhouse must be provided, as required by law, with a flag and the proper means of displaying it.

7. This list of minimum requirements for temporary approval is intended to cover only such changes as are required to make schoolhouses decent and safe for children and in many cases will be less than has already been done. Full regulations for the permanent approval of schoolhouses will be prepared and placed in the hands of school boards before the budgets for the next school year are made up. These regulations will require the adoption of a progressive plan of schoolhouse betterment.

8. It is the duty of all school boards to see that all schoolhouses are properly cleaned and that they are kept in clean and sanitary condition by suitable janitor service. Vaults should be cleaned at least twice a year and some effective deodorant provided for constant use. Proper care of school buildings is as essential to their approval as their construction.

REGULATIONS ON HEALTH AND PHYSICAL WELFARE FOR THE YEAR 1919-1920 ONLY

All districts which have adopted medical inspection in accordance with the Laws of 1913, Chapter 83, shall comply with the provisions of the law.

In all other districts there shall be employed, as the school board may direct, a school physician, or a school nurse or school nurses, who shall make not less than one annual examination of pupils, note and record their physical condition, together with diseases and defects, including dental defects, notify teachers and parents and with the aid of teachers and superintendents labor to secure remedial treatment if necessary, provided, however, in districts where school physician and nurses are under control of the local board of health, such control shall be exercised by said board. All tests shall be made as the law provides and all reports made upon prescribed forms.

SCHOOL ATTENDANCE

Unless excused for physical or mental reasons, any child of school age must attend a public or an approved private school all the time such school is in session.

It is the particular duty of the truant officer to see that this law is enforced.

I know of no other civil law so frequently violated by otherwise law abiding citizens as is the School Attendance Law.

Detaining pupils at home for work, the purpose of purchasing clothing for them, or allowing them to attend moving picture shows in the afternoon, or visiting friends, are the excuses usually received by the teachers for absences.

It is quite evident that the parent or custodian does not realize that he is not only breaking a useful law but is making a truant of the pupil.

The effect of non-attendance at school is most pernicious both to pupil and school. A day out of school is a day lost in the pupil's school-life. A large per cent of retardation or lack of promotion is caused by irregular attendance.

A child of normal bodily and mental health should have completed the eight grades of school at the age of fourteen or earlier.

If for no higher reason than a financial one a parent should cause his child to attend school regularly, as the Attendance and Child Labor Laws prohibit the employment of children under fourteen years of age.

AMERICANIZATION

A number of factors growing out of the World War forcibly aroused a nation-wide interest in Americanization. The Surgeon General of the army submitted a report showing the illiteracy in the draft camps.

Tests made in 28 camps showed an average of illiteracy of 24.9%. This represents a per cent of the illiterate between the ages of 21 and 31.

These men are presumably recently out of school, and illiteracy is less between those ages than any other adult years.

If this percentage is one to four in our best class (not able to read a newspaper or write a letter home) what would be the number of all our people unable to read or write?

These facts and similar awakened in our people the need of education, of the foreign born, in the English language and American ideals.

THE TEACHER SHORTAGE AND SALARY

General Frank Streeter, Chairman of the New Hampshire Board of Education, at a conference at Durham, December 31, 1919, said :

“There are now 50 of our schools closed because of lack of teachers, and probably 80 or more will be closed with a few weeks. From statistical experience we may expect that there will be withdrawals of between 400 and 500 teachers at the end of the present year. Our two normal schools will graduate less than 100, which is about the usual number.

“There is no certainty of filling the vacant places with a sufficient number of competent teachers.

“The State Board frankly admits that the situation is serious and is a cause for anxiety, but it is not ready to admit that New Hampshire cannot protect itself and its schools against the threatening danger.”

It is an acknowledged fact that the shortage has been caused by the low salaries paid teachers as compared with wages paid stenographers, clerical positions, and women laborers in other industries.

The remedy is a salary increase.

In making a salary schedule, I quote from the report of the United States Commissioner of Education :

1. “The salary of a teacher at the very least should be a living wage large enough that a teacher should live in comfort, purchase necessary books for professional reading and culture and to take part in the social life of the community. The salary should be sufficient not only for these present needs but large enough for a savings account.

2. "The maximum salary should be large enough to retain the services of the most efficient teachers and to induce others to enter the profession."

I ask of the citizens their hearty coöperation, as in former years, for the carrying into effect completely the new requirements of the School Regulations and Laws

In order that this may be accomplished a sufficiently large appropriation must be made at the Annual School District Meeting. Otherwise it will devolve upon the state authorities and the expense charged to the district.

Respectfully submitted,

HENRY S. ROBERTS,
Superintendent of Schools.

Remarks

It is with sadness that we make our yearly report. A serious loss has been sustained in the passing on to the higher life of Arah W. Prescott. Mr. Prescott was interested in everything which would in any way benefit mankind. He gave our beautiful library building, with all the furnishings. His generosity did not end there. Whenever he saw that anything was needed he was ready to meet the demand. When the library was built, we had three steel bookcases. When these were filled, he purchased two more at an expense of \$150. He had the first steps, which were of cement, removed and replaced them with solid granite. These will ever remain as a memorial of Mr. Prescott's public spirit and generosity.

The friends of the library continue to remember it with gifts of books and magazines, which are much appreciated. Mr. Clifton P. Sanborn gave a helmet taken from a large number made by the Germans to wear in anticipation of their capture of Paris. He also gave a medal made from a German cannon, which he won by

faithfulness in collecting money for the Victory Liberty Loan. We appreciate these gifts, for they are valuable relics, and will always remain in the library.

You will see that we have not been able to purchase as many books this year as usual. Our appropriation is no larger than it was years ago. Books are one-third higher, consequently we cannot have as many. Mr. Charles Porter of Manchester has given the Geographical Magazine, which is one of the best published.

We would recommend an endowment for the library; the interest would enable us to procure more books every year and thus better supply the demands of our patrons.

We take this opportunity to thank all who have helped in the good work of the library.

Respectfully submitted,

JENNIE B. ABBOTT,
Librarian.
